RAINBOW OFFERS

All our supplements and natural remedies are formulated in small batches to maintain quality and freshness, and manufactured in the U.K. by our parent Company, which was founded in 1977, by its present directors, with two generations of honesty and commitment.

**THE BEST WAY TO BUY YOUR
TABLETS IS FROM THE
MANUFACTURER,
WE KNOW WHAT'S IN THEM !!
WE DEAL WITH ALL OUR
PRODUCTS FROM START TO
FINISH
-NO MIDDLE MEN-**

The passion and philosophy of Rainbow Wellbeing is to work with nature in the pursuit of excellence by providing what people need to keep themselves healthy, and to regard ourselves as serving rather than exploiting, a fact well reflected in our price structure.

OUR PRODUCTS

All raw materials used in our products are of the highest quality. The medicinal herbs are organic where possible, and manufactured to GMP and organic standards, in some cases with guaranteed standardised extracts. In addition to our branded products our parent company can offer, to trading customers, own label contract manufacturing of capsules, tablets, packing etc., contact us for further details.

As manufacturers we can offer quality products, direct to the consumer, at affordable prices, but if for any reason you are not completely satisfied, we will gladly exchange the goods or refund your money providing they are returned unused within 28 days from date of purchase. This guarantee does not affect your statutory rights.

DISCLAIMER

We are selling all the products as dietary supplements and/or natural remedies, intended to improve the individuals health and nutritional profile. Rainbow Wellbeing do not purport to diagnose, treat, cure, relieve or prevent any condition or disease. If you have or suspect that you have a medical problem, promptly contact a doctor and/or your health care provider.

JOINT & BONE HEALTH

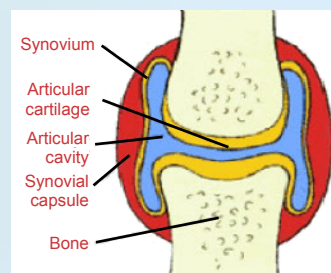

Glucosamine and Chondroitin sulphates have become an extremely popular supplementation protocol in the treatment of degenerative joint diseases (osteoarthritis and arthritis).

It is important to recognise that there are many forms and qualities of Glucosamine and Chondroitin, although global prices have substantially decreased, beware of low prices on offer. All our products are of the highest quality.

Chondroitin sulphate has anti-inflammatory activity, reducing pain and increased articular mobility by means of several mechanisms. For those allergic to shellfish, we offer Collagen Type II derived from chicken cartilage which contains Chondroitin, Glucosamine and Hyaluronic Acid, all naturally occurring in the food state for maximum absorption, and necessary components for the repair of cartilage.

Essential fatty acids (such as Omega-3) are very important to the body's health they reduce blood stickiness, blood clotting, cholesterol levels, blood pressure, inflammation etc.

AMINO ACIDS

- P/5600** L-Glutamine (free form) 60x500mg **£7.22**
P/5601 Acetyl-L-Carnitine (60x350mg Caps.) **£7.61**
P/5602 Arginine HCl + Phosphatidyl choline + B5 120 Vegetable Capsules **£14.25**

Amino Acids are the building blocks of proteins, eight of these are known as the "essential amino acids". Individual ones have been found to have specific beneficial effects, such as burning off fat, treating baldness, building muscle, relieving stress, etc.

Arginine is considered 'semi-essential'; it is a powerful vasodilator and helps maintain blood flow to the heart. It is also an

antioxidant helping to keep the arteries clear and free-flowing. Our special formula (product 5602) which contains choline and vitamin B5 is ideal to take for a healthy heart.

SPORT & ENERGY NUTRITION

- P/6400** Creatine Monohydrate 250g Powder **£8.75**
P/6401 D-Ribose 120 Vegetable Capsules **£17.55**
P/6402 D-Ribose 100g Powder **£16.45**

Creatine is made up of three amino acids and is stored as phosphocreatine in muscles.

It is of special benefit to athletes when they are involved in aerobic activities.

D-Ribose is a new product aimed at supporting cellular energy production and normalising diastolic cardiac function. This product is gaining attention among the world's leading cardiologists as a way to optimise

heart energy production among athletes and to achieve lasting cardiovascular health, it is reported that D-Ribose can help patients suffering from coronary artery disease, congestive heart failure, peripheral arterial disease, and how it may help in conditions such as fibromyalgia and chronic fatigue.

Doses of D-Ribose usually result in symptoms improvement very quickly. If the initial response is poor, increase the dose. Follow the directions on the product label.

Our antioxidant formula is a powerful one that supplies all necessary antioxidant nutrients, including vitamins A C & E and other food state ingredients. Antioxidants are substances that neutralize free radicals. Free radicals unless or until they are neutralized, damage various body cells. For instance they can distort the DNA genetic blue print thus causing many of the degenerative diseases of ageing, such as heart disease, cancer and strokes, they also attack blood vessels producing blood clots and arteriosclerosis and they can damage brain cells, creating memory loss and senility.

Germanium is much acclaimed trace element. Organic Germanium boosts the immune system and lowers the oxygen requirements of the body organs and is a powerful, antioxidant reducing peroxidation damage, and helping prevent the debilitating diseases of ageing. Organic Germanium has also anti-arthritis properties.

Acerola is one of the richest-known natural sources of vitamin C and contains many other vitamins, minerals, bioflavonoids and phytonutrients.

All the nutrients found in these two natural products work with each other as nature intended. The contents of our vegetable capsules are 100% pure and natural, no additives or fillers of any kind.

Probiotic Super Greens is a pre-digested superfood combination readily absorbable full spectrum, plus 13 strains of bacteria they work synergistically to improve bowel and immune system health. The 13 bacteria help the generation of the approximately 100 sub-strains. Each occupies its own niche within the body to aid in the assimilation of nutrients, clean the intestinal track and renew the inner organs. These bacteria quickly find and help eliminate toxic regions within the body and help to manufacture essential enzymes and vitamins in the gut.

Ingredients: Organic Barley Grass, Organic Spirulina, Organic Wheat Grass, Organic Alfalfa Grass, Organic Oat Grass, Dunaliella Salina, Organic Yam, Agave, Chlorella, Kelp, PLUS 13 strains of beneficial bacteria.

Each Vegetable Capsule of Super Greens contains 400mg of 100% pure active ingredients, no fillers or additives of any kind.

Colloidal Silver is a gentle, yet effective natural antibiotic, completely free of side effects, it does not harm the healthy bacteria in your gut; a completely natural solution for infections of any kind.

SERRAPEPTASE

We offer a selection of Serrapeptase to suit everybody's needs in fact if you can buy a comparable product elsewhere cheaper we will gladly repeat equally your next order of Serrapeptase completely **FREE**.

Serrapeptase is a protein-digesting enzyme, first isolated from silk worms. It digests all dead tissue in the body, including blood clots, cysts, arterial plaque etc. It can also be used to improve circulation and relieve pain of any kind caused by inflammation such as; arthritis, joint and muscle, lupus, headaches, migraines caused by inflammation, lung problems, eye problems from inflammation/blocked veins, fibromyalgia etc. Our parent company have been manufacturing capsules and tablets of Serrapeptase for many years and have tested at various strengths with and without enteric coating and have not observed any difference. We believe that the matter rests very much on vitrio tests adapted by some manufacturers and distributors as a tool to hype their marketing. Phthalates, normally the coating material, appear to have inherent hazardous properties and we don't think they should be in the human body at any level. Providing the capsules/tablets are taken on an empty stomach it should not be necessary to enteric coat them, we recommend the reader to current literature.

However to serve all opinions we can offer some Serrapeptase products coated or uncoated. When ordering, please select the appropriate option as required.

ANTI-AGEING L-CARNOSINE

- L-CARNOSINE (b-alanyl-histidine)**
 - P/6200** 30x500mg Tablets (one a day) **£19.76**
- L-Carnosine is made out of a chemical combination of the amino acids betalanine and L-histidine. Studies confirm that carnosine has the remarkable ability to rejuvenate cells, it is working as an anti-aging agent from within our cell structure. Carnosine is a naturally occurring product in our food, but with the passing of time it decreases, this is believed to be one of the primary factors leading to the aging process. The human body has an optimum design factor of over 120 years, but

few people live beyond their 90's. Carnosine is therefore a major tool in the fight against ageing.

WEIGHT LOSS SUPPLEMENTS

- P/6700** Chitosan fat Absorber + Vit. C
90x250mg Capsules..... **£5.52**
- P/6702** Guggul Extract with Centella Asiatica
Extract. 90x450mg Veg. Caps. **£12.05**

Chitosan has a positive ionic charge, whilst fat has a negative ionic one. By taking the capsules, as a dietary food supplement after each meal, part of the fat taken will be absorbed by the Chitosan. The fibre bound fat resists digestion and passes naturally through the body. A useful product to add to your slimming programme.

Guggul has the ability to accelerate the chemical 'burning' away of stored fat, by simply converting it into more physical energy. This is done by resetting the body's own 'fat thermostat' a few degrees higher (not to be confused with an unhealthy rise in body temperature). All this action takes place in the thyroid, that butterfly-shaped gland that sits on top the windpipe at the base of the neck.

- P/5800** Food state **Nutri-Min Plus** over 73 trace elements 60x650mg Veg. Caps. **£11.55**
(Probiotic Minerals 16mg, 310mg Colloidal Minerals, Glucosamine 200mg, MSM 100mg + Boron 24mg)

Nutri-Min is a probiotic colloidal mineral complex containing over 73 trace elements derived from brown coal formed over 200 million years ago from vegetation which was growing in a balanced equilibrium unaffected by industrialization and human mismanagement. The coal is burnt and the ash

used as a nutrient for lacto bacilli under conditions and procedures which are the manufacturers proprietary information. The lacto bacillus absorb the minerals present in the ash and convert them to an organic colloidal state. The formula contains other important colloidal minerals, Glucosamine Sulphate, MSM and Boron, in an easy to swallow vegetable capsule suitable for vegetarians.

CHOLESTEROL CONTROL

P/6600 Red Yeast Rice (Monascus Purpureus)

90x430mg Vegetable Capsules **£9.85**

P/6601 Guggul (Commiphora Mukul)

3% Active 90x400mg Veg. Caps. **£10.45**

P/6602 Grapefruit Pectin Fibre

90x400mg Capsules..... **£6.51**

Each Vegetable Capsule provides 430mg of 100% high potency pure dried red yeast rice containing 1.73% active ingredient.

Red Yeast Rice refers to *Monascus purpureus*, or rice that has been fermented by the addition of yeast. Red yeast rice is

incorporated into natural dietary supplements. It contains HMG-CoA (hydroxymethylglutaryl CoA) reductase inhibitors. To control cholesterol take two of our capsules a day with meals and avoid grapefruit, either the fruit or juice, as this will interfere with proper absorption.

Guggul (*Commiphora Mukul* Extract): It not only lowers total serum cholesterol and plasma triglycerides, but also greatly reduces 'bad' cholesterol (LDL cholesterol), while at the same time increasing 'good' cholesterol (HDL). This should come as welcome news to those who worry about their heart arteries or livers becoming clogged up with too many fat deposits. The evidence was strong enough for the Indian government to approve Guggul as a treatment for high cholesterol. It appears that Guggul can lower cholesterol by about 11 to 12% and triglycerides by 12.5 to 17%.

ENZYMES & CO-ENZYMES

Here you will find a selection of Enzymes; digestive enzymes, Natokinase, Protease enzyme, high potency Q10 with Magnesium and an Anti-Ageing formula with 50/50 R&S Alpha-Lipoic Acid.

Altazym is a special formula for many health problems, it contains 11 enzymes including serrapeptase and nattokinase plus another 13 ingredients such as antioxidants, vitamins etc.. Although it is a synergist all purpose formula, addressing the nutritional needs for a healthy heart and cardiovascular.

Co-Enzyme **Q10** helps to maintain a healthy cardiovascular system, heart, normal immune function and benefits patients in controlling high blood pressure

Nattokinase this is a fibrinolytic enzyme extracted from an ancient Japanese food called natto and has been consumed in Japan for over 2000 years for cardiovascular health. It may help promote: normal blood pressure levels, normalisation of fibrin leading to smoother blood flow, more efficient circulation when sitting for long periods and long-haul flights. Seek advice before use, if you are taking an anticoagulant (blood thinning medication) or vitamin K, or if you have experienced bleeding or had a recent operation. For detailed information about our enzymes visit our website.

WHAT DOES ORGANIC FARMING MEAN?

Pesticides are severely restricted - instead organic farmers develop nutrient-rich soil to grow strong healthy crops and encourage wildlife to help control pests and disease.

Artificial chemical fertilisers are prohibited - instead organic farmers develop a healthy, fertile soil by growing and rotating a mixture of crops using clover to fix nitrogen from the atmosphere.

Animal cruelty is prohibited and a truly free-range life for farm animals is guaranteed.

Genetically modified (GM) crops and ingredients are banned under organic standards.

No food has higher amounts of beneficial minerals, essential amino acids and vitamins than organic food. Organic food avoids pesticides and all controversial additives including aspartame, tartrazine, MSG and hydrogenated fats. Organic food contains higher levels of vitamin C and minerals like calcium, magnesium and iron as well as cancer-fighting antioxidants and Omega 3.
